

CSMS LOCAL PARTENERSHIP MEETING MINUTES

7 July 2010

Meeting Began: 1300 hrs DSCC, OH CSMS Conference Room

Members Present: Hill, Higginbotham, Hoskinson, Wille, McDonald, Rogers

Opening Remarks: Rogers introduced himself as the temporary Management Co-Chair.

Old Business:

1. Facilitators- currently have two assigned and trained. One will be deployed soon. Management will assign another person for training when the time permits.
2. Tooling- Most of tooling, etc. has been identified. List from automotive will go to Supply Supervisor soon.
3. Computers/ETM Readers- still an open issue. ~15 RCAS have been reimaged. Management is working with J6 to get the remaining computers reimaged. Requests for ETM readers and MSDs have been permitted and status is being monitored.
4. Smoking area- located at the Newark facility, if not already being constructed, is ready to be constructed.
5. Texting- shop SOP that applies to cell phone usage will also apply to using them to text. (closed)
6. Parking signs- are being coordinated thru the allied trades section.
7. Labor VP- still needs to provide assistance to USPFPO labor rep to ID telephone and computer requirements.
8. Technicians driving civilian trucks at the USPFPO need CDL training. (closed)

New Business:

1. Update safety meeting schedule.
2. FEDLOG will not load/work on new computers. Electronic section cannot download updates for COTS equipment software. RCAS drops and access still an issue, mostly due to low prioritization from J6. HRO Assistant's loaner for Newark still not repaired. Need to form a working group to identify and define all these type of issues and schedule an assistance visit from the J6/CSSAMO to address.
3. Management reviewed with labor the current plan for supervisor coverage, more to follow. Also reviewed plan to reorganize automotive and inspection into more of a team concept. All agreed the plan looks complete and good so far.

Ron Hill, Labor Co-Chair

Randel Rogers, Management Co-Chair
