 - b. Justin Willie was contacted via phone and substantiated that this was the case.
 - Indicated that the situation had rapidly spiraled out of control between AGR and technician personnel involved.
 - Validated that a meeting between both parties would be held next week and that he would be there representing claimant as a union steward.
 - An additional phone conversation with Justin verified his involvement will actually be at a level below the LPC and that any unresolved issues will be forwarded to the West LPC for action.
 - A request from Justin for west labor representation at the meeting was agreed upon by the LPC.
 - Discussed additional stewardship training which would help facilitate a quick response to technician representation on the west side.
 - We reiterated the need for AGR management and unit technician representation on the LPC. Justin indicated that COL Faber, Jeff Tanner, and himself may attend the 13MAY09 West LPC Meeting to help facilitate.
