

Ohio Network Account Requirements

Step 1 Create and populate milconnect account for Enterprise Email (EE):

milConnect is a Web site provided by the DMDC that offers sponsors, spouses, and their children (18 years and older) access to their personal information, health care eligibility, personnel records, and other information from a centralized location.

Pay Information: To request pay information you may visit <http://www.dfes.mil/> or if you need your W2 or a Form 1099, please visit: <http://www.dfes.mil/contractorsvendors/taxinfo.html>.

If you've recently gotten a letter from **UnitedHealthcare Military and Veterans** and have questions about your policy, primary care managers, automated payments, etc., please go to <http://www.uhcmilitarywest.com> or call 1-877-988-9378.

Attention Airmen: Department of Defense and Air Force officials are encouraging Airmen to review their personal data in the Defense Enrollment Eligibility Reporting System, or DEERS, and accomplish personnel transactions before the service upgrades the Military Personnel Data System in March. Personnel actions accomplished using MIIPDS like reenlistments, enlistment extensions, promotions, unit transfers, discharges and retirements should be completed before the MIIPDS upgrade in March to avoid processing delays with military pay and benefits eligibility issues. More information is available on the ARPC public website at <http://www.arpc.af.mil> and the myPers website at <http://mypers.af.mil>.

Attention current/former SC taxpayers: The SC Dept. of Revenue was breached in a cyberattack. Anyone who paid SC taxes since 1998 is encouraged to acquire ID theft protection by 31JAN13: Visit www.ProtectMyID.com/SCDOR (code **SCDOR123**) or call **1-866-578-5422** to enroll for one year, free of charge.

For more information, please visit <http://www.sctax.org/security.htm>.

[Eligibility for DoD users](#) / [Learn more about DKO](#)

Why do we need your SSN?

- Why do we need your Social Security Number?**
We request your Social Security Number (SSN) and Date of Birth (DoB) during the registration process only to authenticate who you are. The information you provide is compared with your information in the AKO Enterprise Dictionary Database (EDD), and the information is used solely to verify that you are authorized to have an AKO account. This data is already in the EDD and the Secretary of the Army is authorized to use the data for various purposes. Your SSN will be stored with your account when it is created, but it is not shared with any other agency or organization, it is not part of your user name, and it is used only as a discriminator during multiple instances.
- Is it safe?**
Security during registration is ensured using a 128-bit Secure Socket Layer (SSL) connection. This is the highest industry standard and establishes an encrypted session between your computer and AKO. We use the technology that other major companies operating on the World Wide Web (WWW) use to protect personal information and guard against identity theft. Look for the little yellow padlock at the bottom of your browser window that you have established a secure connection. There are no alternate means of registration as this is the most secure method of protecting your information.
