### DUTIES:

General overlapping duties: Supports analytical aspects of various Air Force and Joint Intelligence, Surveillance, and Reconnaissance operations by collating, analyzing, evaluating and disseminating intelligence information. Analyzes, studies, researches, fuses, and correlates intelligence for strategic, operational, and tactical customers. Produces all-source intelligence, situation estimates, order-of-battle studies, and other intelligence reports and studies. Advises commanders on force protection and intelligence information for US and allied forces.

Digital Network Analyst: Exploits global communications to support Computer Network Operations (CNO). Employs techniques to collect, identify, and exploit appropriate communications to ensure accurate targeting. Produces technical products and intelligence reports as required. Prepares target assessments, adversary studies, situation reports, and other intelligence reports as required. Provides tailored intelligence to enable Information Operations (IO) targeting and execution in support of Combatant Commander (COCOM) Objectives. Researches, analyzes, and provides time-critical Network Warfare operations intelligence to support theater COCOMs. Contributes to reports supporting CNO planning and Indications and Warnings. Provides analysis of IO activities and support to Operations Centers and supported commanders. Uses all-source intelligence information to produce and present topical high-interest technical and operational intelligence briefings to all levels of command. Creates and maintains technical and operational databases using diverse computer hardware and software applications.

Analysis and Production: Analyzes and reports intelligence information. Performs detailed analysis on target network communications for additional exploitation. Recovers, correlates, and fuses technical, geographical, and operational intelligence information. Recognizes and exploits information. Authors' time-sensitive intelligence reports in accordance with established guidelines to support decisions makers. Produces, analyzes, studies, researches, fuses, and correlates intelligence for strategic, operational, and tactical customers. Provides target geopolitical and operational intelligence to national agencies and military command authorities. Develops and employs techniques to collect, identify, and exploit target networks and

operating characteristics. Conducts in-depth analysis of communications characteristics and target tactics, techniques, and procedures. Creates and maintains technical and operational databases using diverse computer hardware and software applications. Operates mission-essential communications mediums. Provides detailed support to contingency and deliberate planning processes. Uses all-source intelligence information to produce and present topical high-interest technical and operational intelligence briefings to all levels of command. Prepares target communication assessments, adversary order of battle studies, situation reports, and other intelligence reports as required. Provides analysis of IO activities and support to Air and Space Operations Centers and supported commanders.
